

In conjunction with The Illinois State Dental Society and
The Illinois Foundation of Dentistry for the Handicapped,

Dr. Domagala has participated in the
Dental Lifeline Network since 2010.

The donated dental services program through the Dental Lifeline Network, provides free, comprehensive dental treatment to our country's most vulnerable people with disabilities or who are elderly or medically fragile. These are people who cannot afford necessary treatment and cannot get public aid. The program operates through a volunteer network of 15,000 dentists and 3,500 dental labs across the United States. Since its inception in 1985, the Donated Dental Services program has surpassed \$378 million in donated dental therapies, transforming the lives of 120,550 people.

Dr. Domagala is pleased to volunteer his talents and proud of The Institute of Dental Implants and Periodontics contributions to improve the oral health of our community. For more information on Donated Dental Services, please visit dentallifeline.org
